

Appendix: Expenditure Group Level

At this level , comparisons are made between expenditure groups in each city (Figure 38-62), so that differences in the value of the CPI value can be analyzed using the BPS and *marketplace* approaches .

- City of Bandung's CPI

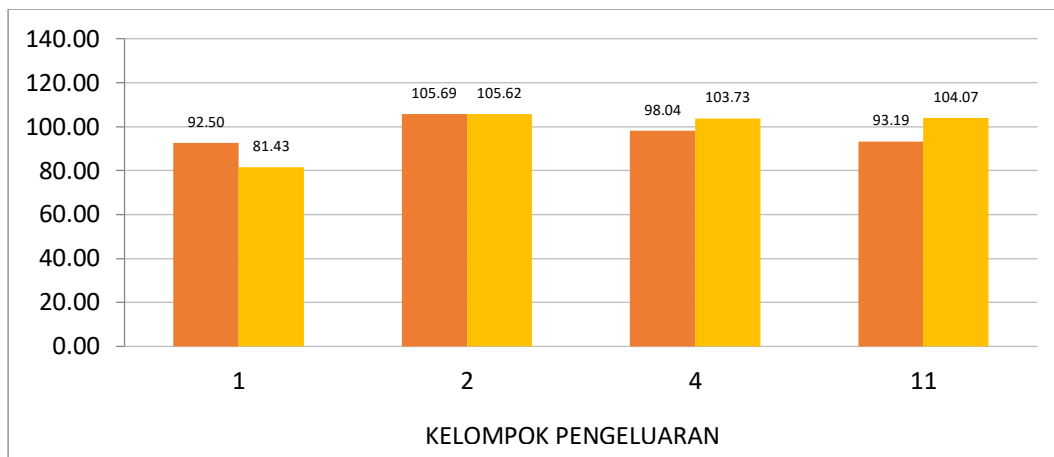

Keterangan: ■ IHK Marketplace ■ IHK BPS

Sumber: Data *marketplace* dan BPS, diolah

Gambar 1. Cakupan komoditas kota IHK Bandung menurut kelompok pengeluaran.

CPI Bandung if calculated with the approach BPS data and data *marketplace* has a massive CPI tends to be the same . The graph at the top (Figure 3 8) shows that the differences in the CPI use two approaches that in each group of expenditure does not exceed 9 unit of the CPI. Differences in most major happens in groups spending Recreation , Sport , and Culture (8) which amounted to 8.36 units of the CPI.

- Banyuwangi CPI City

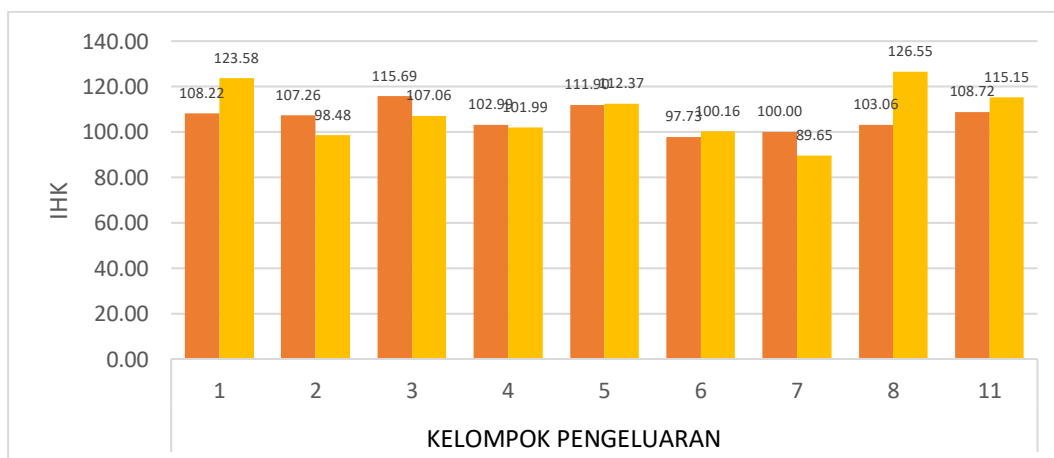

Keterangan: ■ IHK Marketplace ■ IHK BPS

Sumber: Data *marketplace* dan BPS, diolah

Gambar 2. Cakupan komoditas kota IHK Banyuwangi menurut kelompok pengeluaran.

CPI City of Banyuwangi if calculated with the approach BPS data and data *marketplace* at the level of groups of expenditure have the magnitude of the value of the CPI tends to be the same. The graph at the top (Figure 3 9) shows that the differences in the CPI use two approaches that in each group of expenditure does not exceed 12 units of the CPI. Differences in most major happens on group expenditure Food , Beverages and Tobacco (1) occurs the difference is quite high , namely at 11.07 units of the CPI.

- City of Bekasi CPI

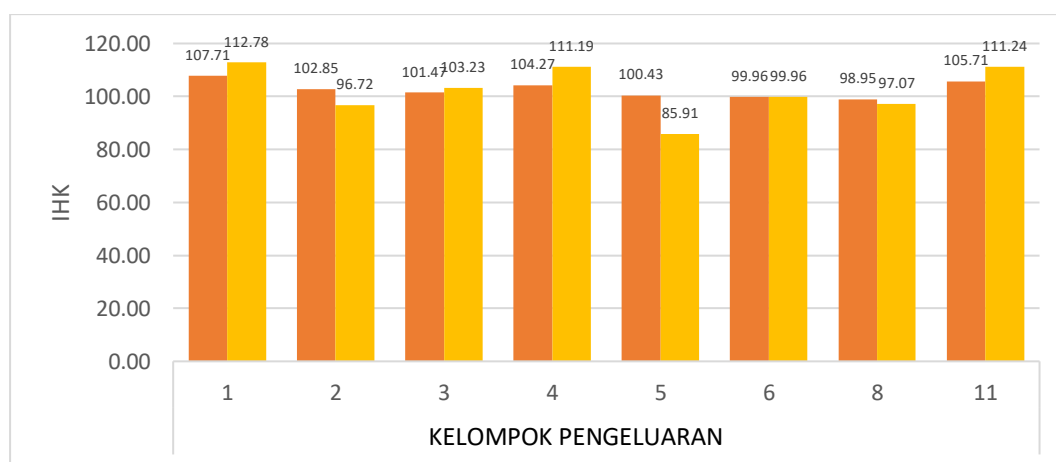

Keterangan: ■ IHK Marketplace ■ IHK BPS

Sumber: Data *marketplace* dan BPS, diolah

Gambar 3. Cakupan komoditas kota IHK Bekasi menurut kelompok pengeluaran.

CPI Bekasi if calculated with the approach BPS data and data *marketplace* at the level of groups of expenditure have the magnitude of the value of the CPI tends to be the same . Based on the graph at the top (Figure 40), the difference most big happens in groups spending Recreation , Sport , and Culture (8) which amounted to 23.49 units of the CPI.

- City of IHK Bogor

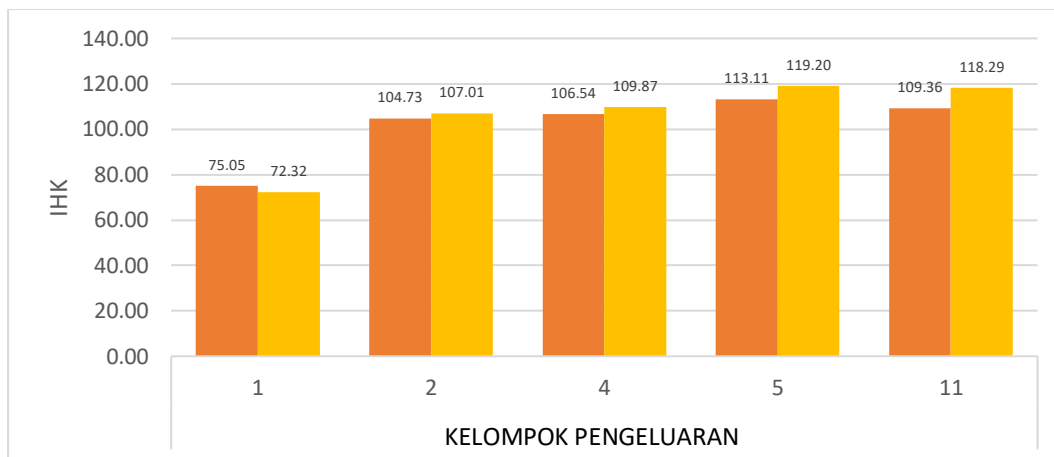

Keterangan: ■ IHK Marketplace ■ IHK BPS

Sumber: Data *marketplace* dan BPS, diolah

Gambar 4. Cakupan komoditas kota IHK Bogor menurut kelompok pengeluaran.

CPI Bogor City if calculated with the approach BPS data and data *marketplace* at the level of groups of expenditure have the magnitude of the value of the CPI tends to be the same . The graph at the top (Figure 41) shows that the differences in the CPI use two approaches that in each group of expenditure does not exceed 15 units of the CPI. Differences in most major happens on group expenditure Health (5) which amounted to 14.52 units of the CPI.

- City of IHK Cilacap

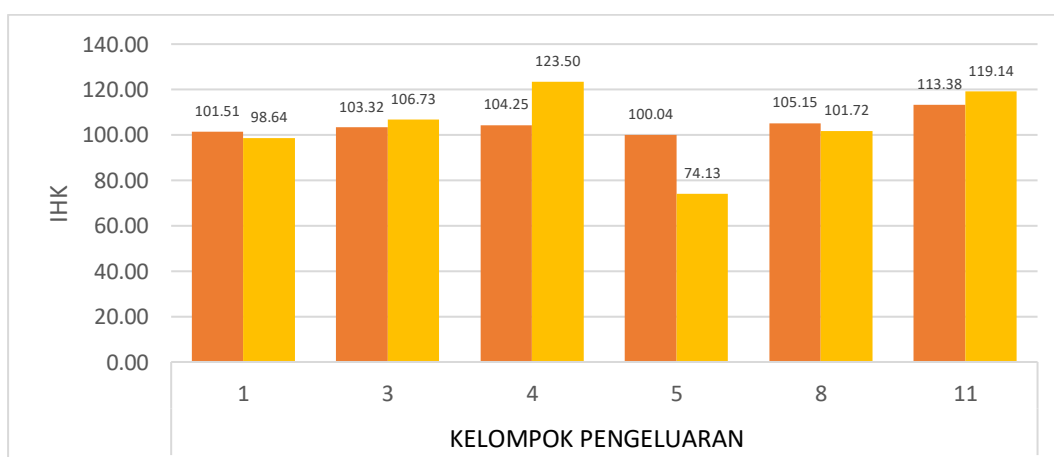

Keterangan: ■ IHK Marketplace ■ IHK BPS

Sumber: Data *marketplace* dan BPS, diolah

Gambar 5. Cakupan komoditas kota IHK Cilacap menurut kelompok pengeluaran.

State CPI Cilacap if calculated with the approach BPS data and data *marketplace* at the level of groups of expenditure have the magnitude of the value of the CPI tends to be the same. The graph at the top (Figure 4.2) indicates that the difference in the CPI use two approaches that in each group of expenditure does not exceed 9 unit of the CPI. Differences in most major happens in groups spending Care Personal and Services Other (11) which amounted to 8.93 units of the CPI.

- City of IHK Cilegon

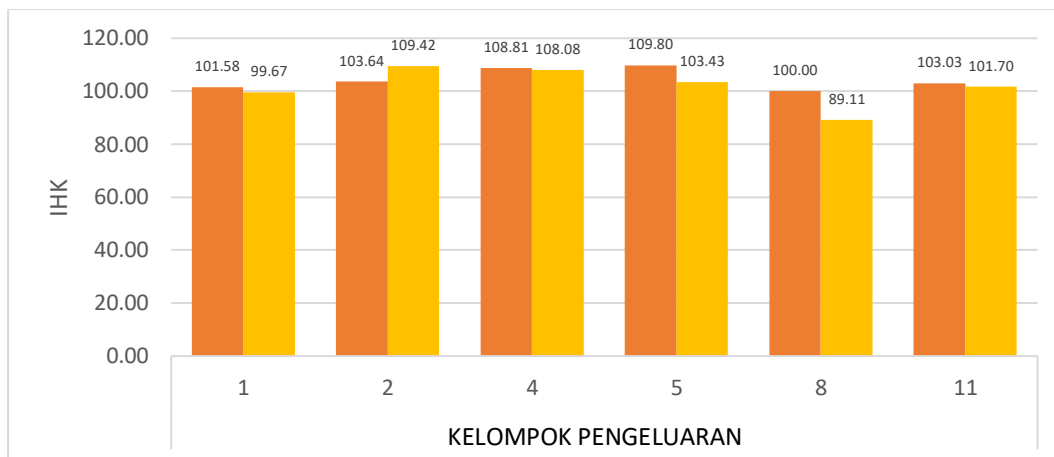

Keterangan: ■ IHK Marketplace ■ IHK BPS

Sumber: Data *marketplace* dan BPS, diolah

Gambar 6. Cakupan komoditas kota IHK Cilegon menurut kelompok pengeluaran.

CPI Kota Cilegon if calculated with the approach BPS data and data *marketplace* at the level of groups of expenditure have the magnitude of the value of the CPI tends to be the same . Based on the graph at the top (Figure 4 3), the difference most big happens in group expenditure Health (5) which amounted to 25.91 units of the CPI.

- Cirebon CPI City

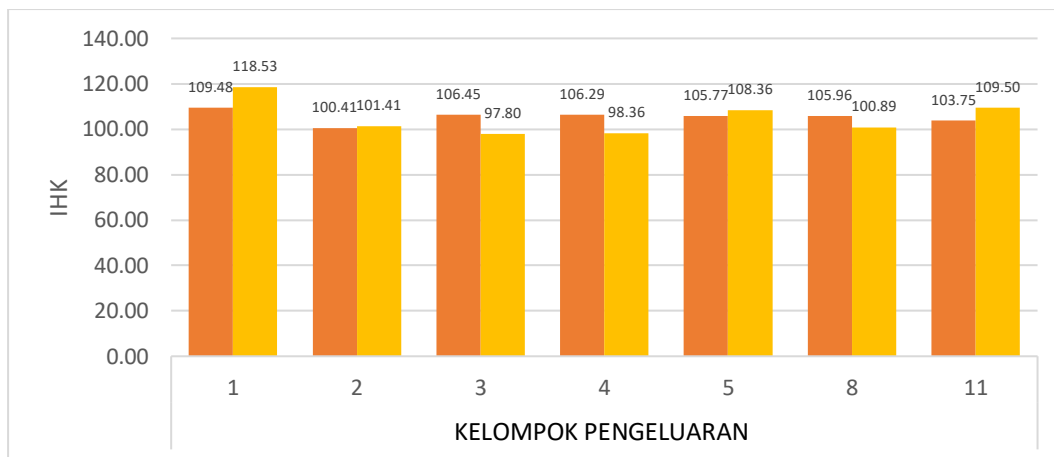

Keterangan: ■ IHK Marketplace ■ IHK BPS

Sumber: Data *marketplace* dan BPS, diolah

Gambar 7. Cakupan komoditas kota IHK Cirebon menurut kelompok pengeluaran.

CPI Cirebon if calculated with the approach BPS data and data *marketplace* at the level of groups of expenditure have the magnitude of the value of the CPI tends to be the same . The graph at the top (Figure 4 4) shows that the differences in the CPI use two approaches that in each group of expenditure does not exceed 11 units of the CPI. Differences in most major happens in groups spending Recreation , Sport , and Culture (8) which amounted to 10.89 units of the CPI.

- City of IHK Depok

Keterangan: ■ IHK Marketplace ■ IHK BPS

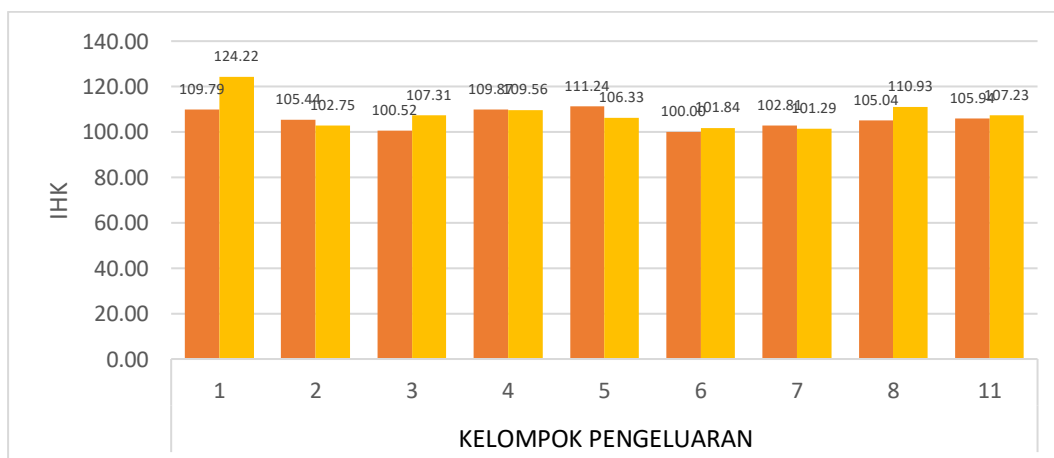

Sumber: Data *marketplace* dan BPS, diolah

Gambar 8. Cakupan komoditas kota IHK Depok menurut kelompok pengeluaran.

CPI Depok if calculated with the approach BPS data and data *marketplace* at the level of groups of expenditure have the magnitude of the value of the CPI tends to be the same . The graph at the top (Figure 4 5) shows that the differences in the CPI use two approaches that in each group of expenditure does not exceed 10 units of the CPI. Differences

in the big happens in groups spending Food , Beverages and Tobacco (1) which amounted to 9.05 units of the CPI.

- City of IHK DKI Jakarta

Keterangan: ■ IHK Marketplace ■ IHK BPS

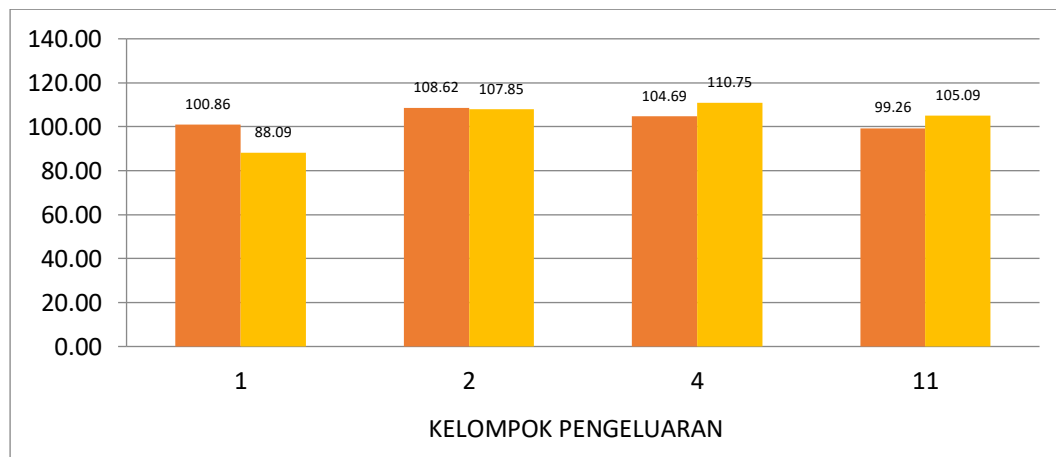

Sumber: Data *marketplace* dan BPS, diolah

Gambar 9. Cakupan komoditas kota IHK DKI Jakarta menurut kelompok pengeluaran.

CPI Jakarta City if calculated with the approach BPS data and data *marketplace* at the level of groups of expenditure have the magnitude of the value of the CPI tends to be the same . The graph at the top (Figure 4 6) shows that the differences in the CPI use two approaches that in each group of expenditure does not exceed 15 units of the CPI. Differences

in most major happens on group expenditure Food , Beverages and Tobacco (1) which amounted to 14.43 units of the CPI.

- City of IHK Jember

Keterangan: ■ IHK Marketplace ■ IHK BPS

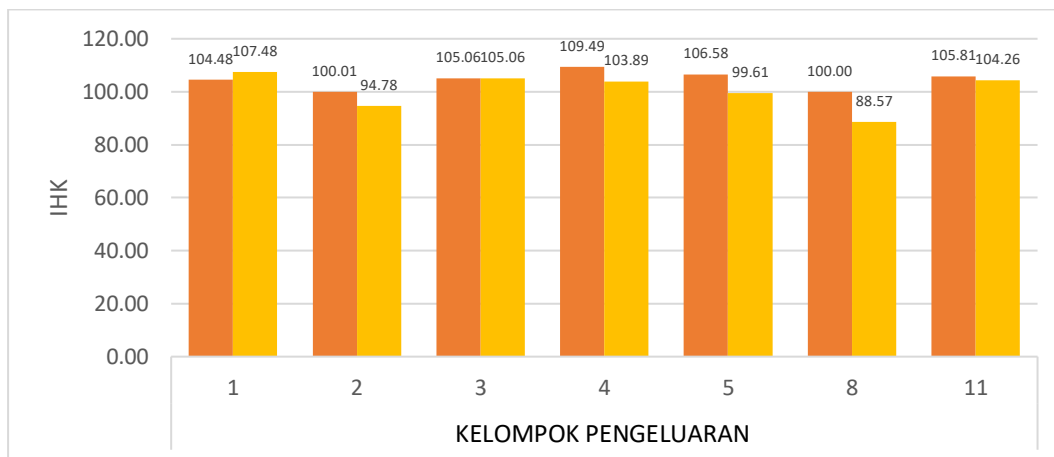

Sumber: Data *marketplace* dan BPS, diolah

Gambar 10. Cakupan komoditas kota IHK Jember menurut kelompok pengeluaran.

CPI City Jember if calculated with the approach BPS data and data *marketplace* at the level of groups of expenditure have the magnitude of the value of the CPI tends to be the same . The graph at the top (Figure 4 7) shows that the differences in the CPI use two approaches that in each group of expenditure does not exceed 12 units of the CPI. Differences

in most major happens on group expenditure Food , Beverages and Tobacco (1) occurs per bedaanny which amounted to 11.91 units of the CPI.

- City of IHK Kediri

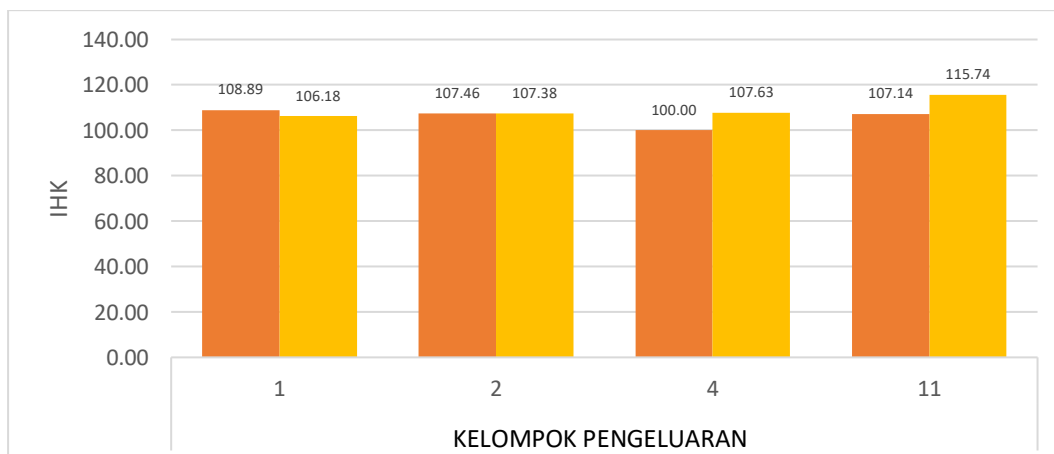

Keterangan: ■ IHK Marketplace ■ IHK BPS

Sumber: Data *marketplace* dan BPS, diolah

Gambar 11. Cakupan komoditas kota IHK Kediri menurut kelompok pengeluaran.

- CPI of Kediri if calculated with the approach BPS data and data *marketplace* at the level of groups of expenditure have the magnitude of the value of the CPI tends to be the same . The graph at the top (Figure 4 8) shows that the differences in the CPI use two approaches that in each group of expenditure does not exceed 12 units of the CPI. Differences in most major happens in groups spending Recreation , Sport , and Culture (8) which amounted to 11.43 units of the CPI.

- City of Kudus CPI

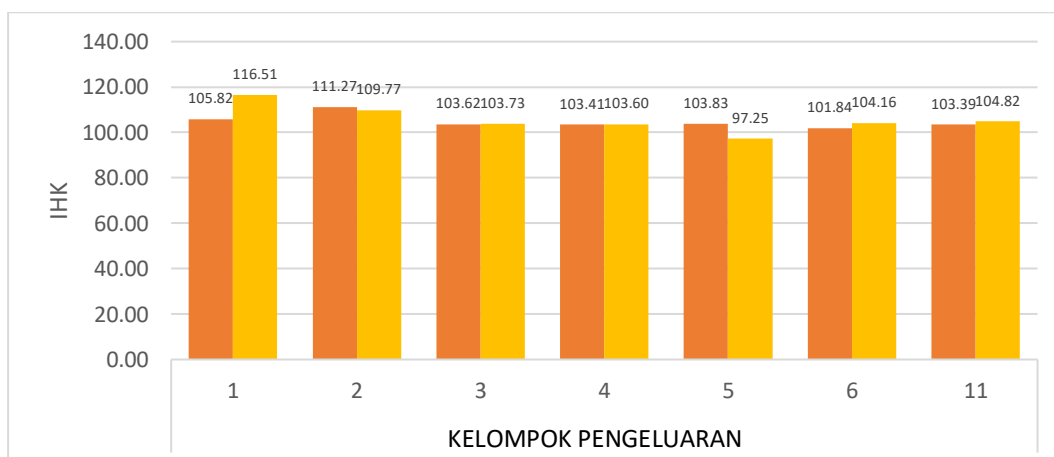

Keterangan: ■ IHK Marketplace ■ IHK BPS

Sumber: Data *marketplace* dan BPS, diolah

Gambar 12. Cakupan komoditas kota IHK Kudus menurut kelompok pengeluaran.

- CPI Kudus City if calculated with the approach BPS data and data *marketplace* at the level of groups of expenditure have the magnitude of the value of the CPI tends to be the same . The graph at the top (Figure 4 9) shows that the differences in the CPI use two approaches that in each group of expenditure does not exceed 9 unit of the CPI. Differences in most major happens in groups spending Care Personal and Services Other (11) which amounted to 8.6 units of CPI.

- City of IHK Madiun
